

# UNDERSTANDING YOUR WATER BILL

These are the readings taken from your meter on specific dates. The difference between the two readings is your water usage expressed in units. One unit is equal to 748 gallons.

The Emergency Storage Fee comes directly from the San Diego County Water Authority (CWA) to cover their infrastructure costs.

Service Charges vary with the size of the meter and pay a portion of the fixed cost of operating the system. Large meters pay more because they place greater demand on the system and require larger reservoirs, pumps and pipelines.

The Water Usage Charge (Total Rate) is a combination of the CWA rate and the VID rate.

- ① CWA's rate pays for water purchased from the San Diego County Water Authority.
- ② VID's rate covers operating and maintenance costs.

A comparison of current and last year's water use for the same billing period.

Message area for announcements.

Detachable invoice portion of your bill to include with payment.
